Loading Bay Protocol

Greenslade Taylor Hunt encourages the courteous use of the loading bays. After unloading, please pull your vehicle off before moving stock to pennage areas. If able, pen stock in inner half of loading bay to allow a further market user to unload behind. No loading of stock is allowed on any section until the sale starts, i.e. 10am on the store cattle and calves and 11am elsewhere. If asked to remove your vehicle by a member of staff or fellow market user, please do so. Abusive behaviour will not be tolerated. Any complaints with respect to the use of the loading bays are to be reported to the section Auctioneer.

Livestock Pennage Security Policy

To prevent the escape of livestock from the pennage area, please ensure:-

Outer loading bay gates are securely chained to vehicle tail board gates when unloading or loading stock. **It will be deemed negligence if this is not done.**

Second set of loading bay gates to be secured with chain (cattle) and sliding fastener (sheep) after unloading.

Gates are always to be left in closed position when vacating loading bays.

In the event of an escape raise alarm and ensure entrance and exit gates are closed. Once entrance and exit gates are closed, then proceed to recapture stock.

Thank you for your cooperation in this matter.
