Authorisations
BPR Nos.: UK-2015-0906
IE/BPA 70256

Net Weight 4 kg
For professional use in and around buildings.

Mice: High infestation:

- Secure 1 block in covered tamper resistant bait stations or covered bait points every 5m apart (2m apart in areas of high infestation) in areas where rats are active.
- Secure 1 block in covered tamper resistant bait stations or covered bait points spaced 5m apart (2m apart in areas of high infestation) in areas where mice are active.

Public Use Areas: When Jaguar Rodenticide Blox is being used in public areas and tamper-resistant bait stations are not used, the following must be implemented:

- If the product is being used in public areas, the area must be closed during the treatment period and a notice explaining the risk of secondary poisoning by ingestion or oral contamination using the rodenticide must be displayed in a prominent position alongside the baits. Where tamper-resistant bait stations are used, they should be clearly marked to show that they contain rodenticides that should not be disturbed.

Additional Use Instructions:

- Keep a cool, dry, well-ventilated place. Keep original in container.
- Shelf life up to 2 years.

Batch Numbers, Date of Manufacture, and Expiry Date are printed on the container. Store away from light, in a cool, dry, well-ventilated place. Shelf life up to 2 years.

Additional safety information:

- Avoid all unnecessary exposure, in particular avoid ingestion.
- For professional users, the use of appropriate personal protective equipment (PPE) is advised.
- Wash hands, face, and any exposed skin with soap and water after application.
- Avoid all unnecessary exposure, in particular avoid ingestion.
- For professional use only. Use in accordance with the label instructions. 
- Do not use near children or pets. 
- Avoid all unnecessary exposure, in particular avoid ingestion.
- FTW for professional use only – Indoors and Outdoors (around Buildings) 

For use as a rodenticide only.

A ready-to-use block bait containing Brodifacoum for use as a rodenticide by professionals for the control of rats and mice in and around buildings, for the protection of public health, stored products and materials.

For professional use only.

FOR PROFESSIONAL USE ONLY - Indoors and Outdoors (around Buildings)

North America:

Jaguar Rodenticide Blox is a ready-to-use block bait, containing Brodifacoum (0.005% w/w), for use in a rodenticide for control of rats and mice in and around buildings by professionals for the protection of public health, stored products and diseases.

Warnings must be read before use and follow instructions provided. It is illegal to use this product for uses or in a manner other than that prescribed on this label.

Directions for use:

- Read the label before use.
